

Fast and Accurate 24/7  
Patient Information

Space-Saving Design

Multiple Functions  
in Just One Device

Streamlined Workflow

More Payer Connections  
than Anyone in the Industry

## Emdeon POS™

### Easily verify information at the Point-of-Service

Emdeon POS Terminals provide you a quick, simple and accurate way to verify patient information at the Point-of-Service (POS) for Medicaid, Medicare and most commercial health plans. Eligibility verification, credit inquiries and patient classification can be completed in seconds, followed by a printed response, 24 hours a day, 7 days a week.

### Perform multiple transactions with one device

You can save valuable time, money and space by processing multiple transactions through just one system. Emdeon POS Terminals provide you the ability to perform:

- Insurance eligibility verifications
- Referrals
- Authorizations/precertifications
- Address verifications
- Credit reports
- Credit card authorizations
- Claim status inquiries

### Take advantage of time and space savings

Terminals fit easily into locations such as registration desks, admissions, emergency rooms and other areas where space and connectivity are high priority considerations. Responses are returned in seconds, so patients can move quickly and easily through registration, leaving you with more quality time to provide good care.

## Point-of-Service Patient Information Verification

At Emdeon™, we're here to help. To transform your healthcare business operations today, call us at 877.469.3263, Option 3 for a complimentary review.

## Ideal for timely information in numerous provider settings

Overall, the multiple functions, ease of use and space-saving design make Emdeon POS an ideal choice for all types of healthcare and ancillary service providers. You can access information easily by swiping a patient's card, using the terminal keypad, or by using the optional keyboard for even simpler entry of search criteria when a card is not available. Regardless of your setting or method of entry, Emdeon POS delivers fast, accurate patient information, right when you need it.

## Features

- Quick, point-of-service information access
- Verification of eligibility, addresses and credit reports
- Referrals, authorizations/precertifications, credit card authorizations and claim status inquiries
- Access to Medicaid, Medicare and numerous commercial health plans
- Easy-to-read 16-character display

## Benefits

- Fast and accurate patient information verification
- Multiple functions available through just one space-saving device
- Fewer human errors and improved patient information
- The most payer connections in the industry

## Requirements

- Analog phone line
- Two (2) electrical outlets or a surge protected power strip

*Note: Terminals can dial any prefix needed for an outside line*
