

EMDEON CLINICAL MANAGEMENT SOLUTIONS IMPROVING PHYSICIAN OFFICE PRODUCTIVITY

Efficient Clinical Management

helps you enrich patient relationships

Flexible

Accurate

Compliant

Secure

The Emdeon Clinician family of Internet-based solutions empowers physicians by consolidating electronic lab ordering, results distribution and ePrescribing into one simplified interface. This fast, accurate and highly secure clinical management suite is designed to interact with most practice management systems to help you increase productivity, reduce costs and provide patients the best possible care.

Increase productivity with less effort

Emdeon Clinician acts as your clinical hub, joining you to thousands of labs, hospitals and pharmacies through the power of the Internet. As a result, you have immediate access to the data you need. Enter and manage orders or prescriptions electronically and then respond, print and distribute reports and results at any time. By managing all clinical communications through one efficient system, you save valuable time, money and effort.

Provide patients with reliable, quality care

It's not enough to simply have a wealth of information and efficient communications at your disposal. It's important to know that every transaction is accurate and secure. The extensive Emdeon network provides a robust backbone capable of processing millions of secure transactions each day. This network taps some of the most comprehensive databases available to give you the most accurate and secure information possible, any time you need it.

Work efficiently and spend more time with patients

Emdeon's goal is to help you work more productively to save you and your patients time and effort. Our approach is to seamlessly blend efficient clinical management into the way you already work to benefit those you care about most – your patients.

Productive Clinical Management

At Emdeon™, we're here to help. To transform the way you manage clinical services today, call us at **877.947.9669** or email us at ClinicianRx@emdeon.com.

Simplify clinical communications and reporting

Emdeon Clinician simplifies clinical ordering, laboratory reporting and document distribution with numerous labs and hospitals through one communication solution that saves you time and effort. Advanced results management tools, such as historical trending, improve patient evaluation and education. This Internet-based solution lets you work at your convenience and enables you to instantly access the information you need anywhere, anytime.

Efficiently manage the information you need

Emdeon Clinician bridges hospitals, IDNs, laboratories and pharmacies to healthcare providers. Years of physician workflow expertise helped us design Emdeon Clinician. Its interoperability uniquely positions Clinician as a clinical clearinghouse with the ability to deliver compliant results to EHR systems in the healthcare provider office.

Fast, accurate ePrescribing that puts patients first

Clinician's ePrescribing module empowers physicians with a simple but robust ePrescribing solution focused on patient safety. Enhanced safety features enable providers to perform DUR checking and instantly cross-reference medication histories and payer formularies for critical information at the point of care. Electronic communication with virtually any pharmacy saves time by reducing phone calls.

Benefits
