Emdeon Prescription Benefit Solutions Pharmacy Claims Adjudication

Reliable, real-time claims adjudication can help keep drug costs down and give you, pharmacists and plan members peace of mind.

Quick, reliable claims adjudication at the point of service

The state-of-the-art Emdeon SelectRx system offers a cost-effective alternative to the task of operating and maintaining an in-house pharmacy claims adjudication system. Transactions from pharmacies are adjudicated online, in real-time, according to your benefit plan design, in just a few seconds. Our state-of-the-art Data Center currently processes over 180 million claims annually for more than 12 million beneficiaries representing over \$4 billion in total payments.

Emdeon SelectRx fits any benefit plan design

The flexible and easy-to-use Emdeon SelectRx system fits any benefit plan design and can grow to meet your ever changing needs. Members can be added, changed and displayed online in real-time via remote access. The SelectRx system is available to your staff and pharmacies for adjudication and maintenance 24 hours a day, 7 days a week.

Detect potential conflicts before you fill prescriptions

SelectRx provides prospective, concurrent, and retrospective Drug Utilization Review (DUR) to minimize potential patient drug impact while aiding in plan cost savings administration. DUR edit responses are returned in seconds to help providers and patients quickly and easily resolve any issues or conflicts.
