

Simplifying the Business of Healthcare

Emdeon MediCLAIM

Streamlined electronic claim submission with Emdeon MediCLAIM saves healthcare providers time and money by making it easy to reduce costly claim rejections and errors.

Eliminate the paper and submit claims with ease

Electronic insurance claim submission accelerates the revenue cycle by reducing claim rejections from errors and streamlining the entire submission process. Emdeon MediCLAIM makes submitting these electronic claims for prompt payment simple and cost-effective. Claims can be submitted in multiple formats and user-friendly reports carefully monitor the status of each claim submitted.

Reduce errors and get paid faster

Emdeon MediCLAIM is ideal for medical practices that need to validate professional claims data prior to submission, submit claims and receive Electronic Remittance Advices (ERA). The unique Emdeon MediCLAIM editing process checks submitted data against the required payer edits and prepares claims for prompt adjudication from more payer connections than anyone else in the industry. As a result, fewer claims are rejected and payment turnaround is enhanced.

Flexible solutions that fit any practice

Emdeon MediCLAIM can be customized to fit the way your practice already works and it can interface with virtually any practice management system. The stand-alone Windows®-based solution allows for simplified professional claims editing and submissions. As an alternative, the MediCLAIM Direct Module can be used to quickly and easily submit claims from any platform and supports direct submission of 837 4010a. Each option can provide simple, efficient improvements to the reimbursement process.

Professional Claims Management

At Emdeon, we're here to help. To transform your healthcare business operations today, call us at **866.369.8805** for a complimentary review.

Efficient claims submission and verification

Emdeon MediCLAIM's Windows®-based client is configured to read HCFA 1500 and National Standard Format (NSF) claim files exported from practice management systems.

Emdeon MediCLAIM determines which insurance plan each claim references, reassigns any provider data, performs carrier-specific edits and allows for error correction prior to electronic transmission. Detailed reporting monitors claim status information throughout the process. Emdeon MediCLAIM virtually eliminates costly claims rejections, saving time and money for healthcare providers.

Features

- Easy-to-use, Windows®-based interface that simulates familiar claim forms for electronic claim submission and verification
- Timely, informative reporting and efficient claim status tracking
- Electronic confirmation of submitted claims
- Flexible solutions to fit any medical practice or system
- Convenient storage of required submission information for every payer
- Alternative direct website submission of NSF and ANSI formatted claims through virtually any Internet connection
- Recognition of scanned HCFA 1500 forms and NSF 3.01 claim files

Benefits

- Improved claim acceptance rates and fewer errors
- Faster payment turnaround
- A single claims solution with the most payer connections in the industry
- Excellent customer service
- Fewer phone calls to payers
- Streamlined reimbursement that saves time and money
