

Simplifying the Business of Healthcare

Fast and Accurate 24/7 Patient Information

Space-Saving Design

Multiple Functions in Just One Device

Streamlined Workflow

More Payer Connections than Anyone in the Industry

Fewer Mistakes Improves Patient Information Accuracy

Emdeon POS™

Easily verify information at the Point-of-Service

Emdeon POS Terminals provide you a quick, simple and accurate way to verify patient information at the Point-of-Service (POS) for Medicaid, Medicare and most commercial health plans. Eligibility verification, credit inquiries and patient classification can be completed in seconds, followed by a printed response, 24 hours a day, 7 days a week.

Perform multiple transactions with one device

You can save valuable time, money and space by processing multiple transactions through just one system. As one of the most advanced POS devices available, an Emdeon POS Terminal gives you the ability to perform:

- Insurance eligibility verifications
- Referrals
- Authorizations/precertifications
- Address verifications
- Patient financial assessment
- Credit card authorizations
- Claim status inquiries

Take advantage of time and space savings

Terminals fit easily into locations such as registration desks, admissions, emergency rooms and other areas where space and connectivity are high priority considerations. Responses are returned in seconds, so patients can move quickly and easily through registration, leaving you with more quality time to provide good care.

Point-of-Service Patient Information Verification

At Emdeon, we're here to help. To transform your healthcare business operations today, call us at **866.369.8805** for a complimentary review.

Ideal for timely information in numerous provider settings

Overall, the multiple functions, ease of use and space-saving design make Emdeon POS an ideal choice for all types of healthcare and ancillary service providers. Regardless of your setting or method of entry, Emdeon POS delivers fast, accurate patient information, right when you need it.

Features

- Incredibly fast point-of-service information access
- Verification of eligibility, addresses and credit reports
- Referrals, authorizations/precertifications, credit card authorizations and claim status inquiries
- White backlit display enhances readability

Benefits

- Fast and accurate patient information verification
- Excellent security and accuracy on every transaction
- Multiple functions available through just one space-saving device
- Easy-to-use with plug-and-play installation

Requirements

- Analog phone line or ethernet connection
- One electrical outlet or a surge protected power strip

Note: Terminals can dial any prefix needed for an outside line

Emdeon is a leading provider of revenue and payment cycle solutions that connect payers, providers and patients to improve healthcare business processes.
