

Simplifying the Business of Healthcare

Emdeon MAX™

Fast and Accurate 24/7 Patient Information

Real-Time Individual or Batch Verifications

Streamlined Workflow

The Most Payer Connections in the Industry

Easily verify patient information

Emdeon MAX™ makes it easy to verify patient information in real-time for both individual patients and grouped batches, from virtually any desktop computer. Inquiries can be made 24/7 through simple steps designed to fit seamlessly into your daily routine. Emdeon MAX provides you the ability to perform:

- Insurance eligibility verifications
- Referrals
- Authorizations/precertifications
- Address verifications
- Credit reports
- Claim status inquiries

Take advantage of powerful batch processing

Emdeon MAX is ideal for verifying individual patient records in real-time during registration, but its ability to manage grouped batches can be invaluable. A group of records, or a batch, can be imported and verified together and the batch criteria can be saved for repeated use. For example, you could periodically screen aging private or self-pay accounts to determine if eligibility exists or you could verify pending Medicaid accounts all at once for greater efficiency. The possibilities are endless.

Accelerate data entry with AutoFill

Working with recurring information is a snap with Emdeon MAX. Frequently used data can be entered quickly and easily with customizable AutoFill pull-down menus. You can add new AutoFill choices as you work, making Emdeon MAX even easier to use over time. These automated pull-down menus standardize your data entry, saving time, reducing errors and improving patient records.

Powerful Patient Information Verification

At Emdeon, we're here to help. To transform your healthcare business operations today, call us at **866.369.8805** for a complimentary review.

Efficiently manage the patient information you need

As a complement to our complete line of end-to-end revenue cycle management solutions, all healthcare providers can benefit from Emdeon MAX. Quick, anytime access to patient information can save you time and money. The Scheduler can even run specific verifications you define, automatically and unattended, at any time without you being present in the office. By providing ways to efficiently and accurately verify patient information at the times you need it most, Emdeon MAX can make a difference to your bottom line.

Features
