

## Emdeon XchangeRx Pharmacy EDI Solutions

---

Reliable, real-time and  
cost-effective claims  
adjudication can help  
pharmacists spend more  
quality time with patients.

### A fast, reliable claims processing partnership

With nearly 20 years of electronic transaction experience, Emdeon Business Services understands how to make the pharmacy business easier. XchangeRx leverages this experience by providing a flexible and scalable real-time switching network that connects pharmacies and third-party payers through state-of-the-art data centers. Our flexible telecommunications infrastructure, capable of handling billions of real-time transactions annually, delivers fast, reliable claims adjudication to pharmacies nationwide.

### The dual data center advantage

The power of XchangeRx lies in the parallel processing of Emdeon Business Services' dual data centers and their ability to balance transaction workflow—every minute of every day. Each has ample capacity, but together they can provide the reliability and efficiency busy pharmacies need to conduct business and serve patients.

### Medicare Part D

Pharmacies can submit all Medicare Part D claims to Emdeon and we will return responses just like any other pharmacy claim. In addition, Emdeon passes claim data to the TrOOP (True Out-of-Pocket) Facilitator where appropriate, at no additional cost. Pharmacies can also submit Medicare Part A/B and Part D Eligibility inquiries directly to Emdeon, generally without having to sign a new contract. For pharmacies that cannot generate EI transactions, Emdeon offers a service that will convert BI claims to EI Eligibility inquiries and convert the responses back to BI claim responses.

## Efficient Claims Switching

To explore an Emdeon™ partnership for all your pharmacy EDI needs, call us at **888.545.6127**, **Option 2** for a complimentary review.

## Profitable claim editing solutions

Pharmacies that submit transactions through XchangeRx can readily take advantage of Emdeon's real-time pre/post claim editing and reporting service, Emdeon SentryRx. This service works in conjunction with the Emdeon switch to help pharmacies reduce costly claim submission errors and operate more efficiently.

## A service-rich pharmacy switch

Our dedicated and experienced personnel offer continuity, knowledge and uncompromising service. We can highlight ways to streamline daily tasks and increase time spent with patients through value-added network solutions. We will be there every step of the way to assist in all the critical choices to adapt XchangeRx to meet any technology or business need.

## Features
