

Simplifying the Business of Healthcare

2012 Clinically Preferred Drug List

1st Quarter Edition

Last Revised: 12/27/2011

Table of Contents

OVERVIEW	4	BLOOD MODIFIERS	13
COVERAGE LIMITATION	4	Anticoagulants / Anti-A10 / Thrombin Inhibitors	13
DESI DRUGS	4	Platelet Aggregation Inhibitors / DVT	13
SELECTION PROCESS FOR PRODUCTS	5	Hematopoietic Agents / ACS	13
PREFERRED BRAND PRODUCTS	5	CARDIOVASCULAR (HEART) AGENTS	14
GENERIC SUBSTITUTION	6	Alpha & Beta Blockers	14
SINGLE SOURCE GENERICS	6	Beta Blockers with Diuretics	14
NON-LISTED DRUGS & DRUG CATEGORIES	6	Calcium Channel Blockers (CCBs)	14
PRIOR AUTHORIZATION PROCESS	7	ACE Inhibitors & ACE Inhibitors / CCB Combinations	15
SPECIALTY PHARMACY PRODUCTS	7	A-2 Antagonists (ARBs) / A-2 Antagonists w/ Diuretics	16
FORMULARY MODIFICATIONS & COMMENTS	7	Renin Inhibitors	16
ANTIBIOTICS	8	Antiarrhythmics/Anti-Ischemic	16
Penicillins & Cephalosporins	8	Cardiac Glycosides	16
Tetracyclines	8	Vasodilators, Coronary, Nitrates/ Vasodilators, Sympatholytics	16
Macrolides & Clindamycins	8	ANTIHYPERTENSIVE (CHOLESTEROL) AGENTS	17
Sulfonamides, Sulfones & Ketolides	8	Statins & Statin/CCB Combinations	17
Miscellaneous Antibiotics	9	Bile Acid Sequestrants, Liver Agents	17
Quinolones	9	Fibrates	17
Antivirals	9	Other Agents	17
ANTI-INFECTIVES	9	PANCREATIC AGENTS	17
HIV Antiviral Agents	9	KIDNEY & URINARY / UROLOGICAL AGENTS	18
Amebicides, Trichomonacides	10	Diuretics	18
Antiparasitics	10	Benign Prostate Hyperplasia	18
Antimalarials & Antiprotozoals	10	Urologic Agents / Others	18
Anthelmintic Agents	10	Erectile Dysfunction Agents	18
Leprostatic Agents	10	Gout Agents – Purine Inhibitors	19
Antifungals	10	Urinary Ph Modifiers	19
ANTIEMETIC (NAUSEA) AGENTS	11	Electrolyte Depleters	19
NEUROLOGIC AGENTS	11	Potassium & Electrolytes	19
Anti-Parkinsons Agents	11	MUSCLE RELAXANTS	19
Anti Migraine Agents	11	OSTEOPOROSIS (BONE) AGENTS	20
Alzheimers Agents	12	ANTI-INFLAMMATORY / ANALGESIC (PAIN) AGENTS	20
Anti-Convulsants	12	Anti-Inflammatory Agents (NSAIDS)	20
Restless Leg Syndrome (RLS)	12	COX-II Agents	21
Fibromyalgia Agents	12	Analgesics, Narcotics	21
Neuropathic Pain / PHN Agents	12	Analgesics, Salicylates & Non-Salicylates	21
		Pain Medications, Other	21

CENTRAL NERVOUS SYSTEM AGENTS	22
Anti-Anxiety Agents	22
Sedative/Hypnotic Agents (Non-Barbituate & Barbituate/CNS)	22
ADD/ADHD / Narcolepsy / Adrenergics	22
Serotonin Selective Reuptake Inhibitors (SSRIs)	23
Serotonin-Norepinephrine Reuptake Inhibitors (SNRIs)	23
Other SSRI Combinations	23
Monoamine Oxidase Inhibitors (MAOIs)	23
Antidepressants, Others	23
Antipsychotic Agents	24
Atypical Antipsychotic Agents	24
Bipolar Disorders (Anti-mania)	24
GASTROINTESTINAL AGENTS	25
Anti-Ulcer / GERD, H. Pylori Agents	25
Anti-Spasmodic Agents (Anticholinergics)	25
Bowel & Colon Inflammatories	25
Irritable Bowel Syndrome (IBS) Agents	25
Laxatives & Cathartics	25
CONTRACEPTIVES & HORMONE THERAPY AGENTS	26
Contraceptives	26
Estrogens (Hormone Replacement)	26
Estrogen Combinations	27
Androgenic Agents	27
Progestinal Agents	27
Fertility & Other Agents	27
PRE-NATAL VITAMINS	28
Pre-Natal Vitamins	28
Iron Replacement Agents	28
CORTICOSTEROIDS, THYROID MEDICATIONS	28
Corticosteroids / Mineralocorticoids (Systemic)	28
Anti-Thyroid & Thyroid Replacements	28
DIABETES AGENTS	29
Insulins – Synthetic, Human, Injectibles	29
Oral Anti-Diabetics / Thiazolidinediones / DPP-4 / DPP-4 Combos	29
Anti-Diabetes Injectibles (GLP-1 Agonists)	29
DIABETIC PRODUCTS	30
Diabetic Supplies	30
Urine Glucose / Ketone Strips	30
Hyperglycemic Agents	30
Medical Supplies	30
RESPIRATORY AGENTS	31
Allergy Medications, Asthma Agents	31
Allergic Rhinitis / Dermatological Reactions	31
Glucocorticoid Steroids / Inhaled & for Nebulization	32
COPD Agents	32
Theophyllin Agents	32
Antitussive Agents	32
Anaphylaxis Agents	32

DERMATOLOGICAL (SKIN) AGENTS	33
Acne, Roseacea & Seborrhea Products (Oral & Topical)	33
Psoriasis Agents (Oral & Topical)	33
Antifungals & Antipruritics (Oral & Topical)	33
Keratolytic Agents	34
Wound Care Agents	34
Emollients	34
Scabies & Pediculosis Agents	34
Topical Immunosuppressive Agents (Non-steroidal)	34
Topical Anti-Infectives & Steroids	35
Topical Local Anesthetics & Analgesics	35
Other Topical Products	35
VAGINAL AGENTS	35
Vaginal Antibiotics / Sulfonamides	35
Vaginal Antifungals	35
OPHTHALMIC (EYE) AGENTS	36
Ophthalmic Antibiotics & Sulfonamides	36
Ophthalmic Antivirals	36
Ophthalmic Antihistamines	36
Ophthalmic Immunomodulators	36
Ophthalmic Anti-Inflammatory Agents	37
Ophthalmic Mast Cell Stabilizers	37
Ophthalmic Vasoconstrictors	37
Ophthalmic Miotics (Glaucoma)	37
Ophthalmic Mydriatics	38
Ophthalmic Antibiotic/Corticoid Combination Agents	38
OTIC (EAR) AGENTS	39
MISCELLANEOUS PRODUCTS	39
Alcohol & Opioid Dependency Agents	39
Dental Preparations	39
Hyperparathyroid Agents	39
Parasympathetic Agents	40
Smoking Cessation Products	40
Other Vaccines	40
IMMUNOSUPPRESSANT AGENTS	40
Immunosuppressants	40
Immunomodulators	40
Oral Oncology Agents	40
SPECIALTY PRODUCTS & SUPPLIES	41
Hepatitis Treatment Agents	41
Antipsoriatic Agents	41
Human Growth Hormones (HGH)	41
Multiple Sclerosis (MS) Agents	41
Rheumatoid Arthritis Agents	42
Lung Affecting Agents	42
Prostate Cancer Treatments	42
Notes on Non-Listed Injectibles, Infusion & Oral Products	42

Preface

Overview

The **Clinically Drug Preferred List** is a continually updated list of prescription medications that represents the current clinical judgement of providers and experts in the diagnosis and treatment of disease. This Clinically Preferred Drug List contains additional prescribing and clinical information that assists health care professionals in promoting the highest quality affordable care to patients. This document represents the efforts of our clinical team to provide physicians, pharmacists and/or members with a method to evaluate the various drug products available. The Clinically Preferred Drug List shows both the generic and brand names for reference and convenience. Some plan sponsors, HMOs or Health Plans, or Employers may be provided the option of imposing further restrictions or choose not to reimburse some products listed in the **Clinically Preferred Drug List**.

Additionally, as drug prices increase and utilization grows, tightening the formulary to limit selection to preferred products has become more critical. Our clinicians work together to create a balanced formulary offering the very best clinical products that (1) are effective, (2) are efficacious, (3) are safe, (4) have the fewest side effects, and (5) are provided at the best price. The Formulary Changes & Comments section located on page 7 provides a quick glance of the changes that are being made in the **Clinically Preferred Drug List** to maintain a fine balance.

Coverage Limitation

The **Clinically Preferred Drug List** does not provide information regarding specific coverage and limitations, nor specific exclusions, copays, or a lack of coverage that a member may have assigned at plan level. The **Clinically Preferred Drug List** applies only to outpatient drugs provided to members, and does not apply to medications used in the in-patient setting. All applicable dosage forms and strengths of a particular drug are included in the Clinically Preferred Drug List under the specific entry unless otherwise noted and listed separately.

Desi (drug efficacy study implementation) Drugs

DESI designated drugs are those drugs first marketed between 1938 and 1962 that were approved as safe but were not required to prove effectiveness for FDA product approval. The DESI Program was implemented to determine which of these designated drugs could indeed claim in clinical trials, effectiveness for their specific indications. A few DESI drugs remain classified as less than effective while awaiting final administrative disposition. Many products listed as identical, similar, or related to actual DESI drugs may also be classified as DESI. Some pharmacy benefit reimbursement plans may not pay for DESI drug products.

Selection Process for Products on the Clinically Preferred Drug List

New agents are constantly being developed and approved by the FDA for the treatment of the different disease states. Due to vast availability of medication therapies and treatments, a reasonable process of drug selection and drug usage has been developed. The goal of the Clinically Preferred Drug List is to enhance the physicians' and pharmacists' abilities to provide optimal cost-effective drug therapies to patients.

The development, maintenance, and improvement of the Clinically Preferred Drug List are evolutionary processes that require the constant attention of our P&T Committee. The Clinically Preferred Drug List is a continually reviewed and revised list of drug products that mirrors the prevailing clinical opinion of the P&T Committee. Unfortunately, this dynamic process does not allow this document to be completely accurate in official print at all times although it is always available in PDF format. Due to introduction of new brand and generic products, a book may only be printed once annually with updates being provided as necessary through newsletters and updates made readily available on the Internet for physicians, pharmacists and plan sponsors.

New agents being considered for formulary inclusion will be reviewed for their safety, efficacy, FDA-approved indications, contraindications, side effects, pharmacokinetic profile, patient compliance potential, drug cost and effects on other indirect health costs. A thorough medical literature review will place an emphasis on the following characteristics:

- Safety and Effectiveness of Product
- Comparison Studies with Similar Products if available
- Potential for Patient Clinical or Utilization Abuse
- Therapeutic Outcomes and Pharmaco-economic Data

Agents that are given a "priority" review by the FDA will be immediately reviewed for possible inclusion into the formulary, in as little as 48 hours if necessary. New drugs will have their characteristics compared to other similar agents within a therapeutic class if possible. New drugs that are added to an existing therapeutic class may result in the deletion of other drug(s) within a particular therapeutic class as clinical application warrants. This process ensures and promotes the selection of the most clinically useful and cost-effective agents within a specific therapeutic class.

Preferred Brand Products

Drugs that are added to the Clinically Preferred Drug List indicate that the specific drug offers a clinical and/or cost advantage over existing comparable non-preferred formulary branded drugs. Drugs will not be placed on the Clinically Preferred Drug List if there currently is insufficient clinical information to determine its appropriate clinical effectiveness. Other drugs not included in this book are: any non-preferred or non-formulary products; drugs proven to be clinically ineffective; extremely cost ineffective, or cause adverse health conditions; and high cost drug therapies that require Prior Authorization and utilization management.

Single source generics, generics that are available from only one source, may be considered non-preferred brands with either generic or non-preferred brand copays depending on their price. Such drugs are noted with a [SSG] next to their generic name.

Generic Substitution

When available, FDA approved lower cost generic drugs should be used regardless of the brand name indicated. The brand names listed under the “Generic Drugs” column are for reference use only and do not guarantee coverage. This policy is not meant to preclude any state statutes that may exist (e.g., Non-Substitutable Drugs). Inclusion of a drug product for generic substitution is subject to the following:

- An FDA Rating of "A" for generic equivalency as well as thorough review by the P&T Committee for efficacy and safety
- Certain drug products with complex pharmacokinetics, dosage forms, narrow therapeutic indexes **MAY** not typically subject to substitution. These products may include: **Digoxin, Conjugated Estrogen (Premarin), Chlorpromazine (solid oral dosage forms), Theophylline (controlled release dosage forms) and Levothyroxine.**

Brand drugs listed under the “Generic Drugs” column should be considered as non-preferred brands as there is a generic equivalent readily available. However, brand drugs listed under the “Generic Drugs” column that have a caret (^) are Preferred Brand Drugs with preferred BRAND copays while brand drugs listed under the “Generic Drugs” column that have a caret (#) are Preferred Brand Drugs with GENERIC copays, even though in either case generic equivalents may have a lower copay.

Single Source Generics

Upon patent expiration, brand products become available from one or more generic manufacturers. If the brand product becomes available from one generic manufacturer – typically for a period of exclusivity of 6 months – the product is called a “Single Source Generic” or SSG. If the brand product becomes available from many generic manufacturers, the brand product is then called a “Multi-Source Brand” or MSB, while the generic product is called a “Multi-Source Generic” or MSG.

While a generic product is a SSG, the price of the product may only be 20%-30% cheaper than the original brand product. During this time, at the clinical team’s recommendation, the SSG may be priced according to one of the following algorithms:

- GENERIC discounts with a GENERIC copay billed to the member
- GENERIC discounts with a BRAND copay billed to the member
- BRAND discounts with a BRAND copay billed to the member

As drugs change constantly, the algorithms are not listed in this book.

Non-Listed Drugs & Drug Categories

Drugs not specifically listed in the book should be deemed either as “non-preferred” or “non-formulary” and may require additional member contribution or “copay”. Drug categories that are not specifically listed in the book are generally categories of lower utilization comprised of categories where generic products are readily available (i.e. cough & cold) and shall be driven by plan design if covered.

Prior Authorization Process

Some drug products may require approval called “prior authorization” when the member presents a prescription for that drug product. In other cases, another drug may be required to be used first (called a “step edit”) before the drug prescribed may be covered. Note that the required drug will be indicated with an ^{SE}. The following general criteria are used before a Prior Authorization will be issued:

1. The patient has failed an appropriate trial of other clinically Preferred Branded Drugs (possibly one requiring a step edit)
2. The use of a Preferred Branded Drug may provoke an underlying condition, which would be detrimental to patient care.
3. Injectable, chemotherapy, supplies for infusion, and nutritional supplements **may** require a special request be filled out and faxed to the plan sponsor for authorization. Please indicate if the supplies need to be sent to the physician office or the member.

Specialty Pharmacy Products

The P&T Committee, using current medical literature, has developed a “specialty” pharmacy product formulary comprised of higher cost medications. While not all “specialty” products within the assigned class are therapeutically bio-equivalent, the classifications were determined to group together higher cost agents used for similar treatments.

The specialty pharmacy product formulary is available from your account manager.

Formulary Changes

Changes may be made to this Clinically Preferred Drug List at any time based on availability or market conditions. New drugs recently approved by the FDA that have been added to the Clinically Preferred Drug List are added as Non-Preferred Brands until they are reviewed by the P&T Committee unless the clinical team determines that the product is a “line extension”.

Drugs that are NOT listed in this book where the competitors *are* included should be considered excluded or not covered.

Antibiotics

GENERIC DRUGS	PREFERRED BRANDS	NON- PREFERRED BRANDS
<p>Penicillins & Cephalosporins</p> <p>Amoxicillin / Amoxil Amoxicillin Potassium Clavulanate / Augmentin/ES/XR Ampicillin / Omnipen, Polycillin Cefaclor / Ceclor, Ceclor CD Cefadroxil / Duricef, Ultracef Cefdinir / Omnicef Cefuroxime Axetil / Ceftin, Ceftin Suspension Cephalexin / Keflex, Biocef, Zartan Cephradine / Velosef Cefpodoxime Proxetil / Vantin Cefprozil / Cefzil Dicloxacillin / Dynapen Penicillin VK / Veetids, V-Cillin K</p>		<p>Cedax (Ceftibuten) Spectracef (Cefditoren Pivoxil) Suprax (Cefixime)</p>
<p>Tetracyclines</p> <p>Doxycycline / Vibramycin, Monodox, Vibra-Tabs Doxycycline Monohydrate / Adoxa Pak Minocycline / Minocin, Dynacin, Solodyn Tetracycline / Sumycin</p>		<p>Doryx (Doxycycline Hyclate) Oracea (Doxycycline Monohydrate)</p>
<p>Macrolides, Clindamycins & Ketolides</p> <p>Azithromycin / Zithromax, Z-Max Clarithromycin / Biaxin XL Clindamycin / Cleocin Erythro-Base / Ery-Tab, E-mycin Erythro-Estolate / Ilosone Erythro-Ethylsuccinate / E.E.S., Eryped Erythro-Stearate / Erythrocin Erythro & Sulfa / Pediazole Clarithromycin / Biaxin</p>		<p>Ketek (Telithromycin)</p>
<p>Sulfonamides, Sulfones & Nitrofurantoin</p> <p>Nitrofurantoin / Macrochantin Sulfa-Trimethoprim / Septra, Bactrim/DS Sulfasalazine / Azulfidine</p>		<p>Furadantin Liquid (Nitrofurantoin) Gantrisin Ped (Sulfisoxazole) Macrochantin (Nitrofurantoin Macro)</p>

Antibiotics (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Miscellaneous Antibiotics	Xifaxan (Rifaximin)	Dificid (Fidaxomylin) Vancocin (Vancomycin) Zyvox (Linezolid)
Quinolones Ciprofloxacin / Cipro , Cipro XR Levofloxacin / Levaquin Ofloxacin / Floxin		Avelox (Moxifloxacin) Factive (Gemifloxacin) Noroxin (Norfloxacin)
Antivirals Acyclovir / Zovirax Amantadine / Symmetrel Famciclovir / Famvir Ganciclovir / Cytovene Rimantadine / Flumadine Valacyclovir / Valtrex	Relenza (Zanamivir) Tamiflu (Oseltamivir) Virazole (Ribavirin)	

Anti-Infectives

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
HIV Antiviral Agents Didanosine / Videx Zidovudine / Retrovir	All <u>Single Source Brand</u> HIV Antiviral Agents	All <u>Multi-Source Brand</u> HIV Antiviral Agents

- *Megace & Megace ES only recommended for appetite enhancement due to significant weight loss in patients with anorexia, cachexia or AIDS*

Anti-Infectives (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Amebicides, Trichomonacides Metronidazole / Flagyl , Protostat Paromomycin Sulfate / Humatin	Tindamax (Tinidazole) Yodoxin (Iodoquinol)	Flagyl ER (Metronidazole)
Antiparasitics Colloidal Sulfur Powder	Alinia (Nitazoxanide)	
Antimalarials & Antiprotozoals Atovaquone / Proguanil / Malarone Chloroquine Phosphate / Chloroquine/ Aralen Doxycycline / Vibramycin, Monodox, Vibra-Tabs Hydroxychloroquine / Plaquenil, Quineprox Mefloquine / Lariam Quinine Sulfate		Daraprim (Pyrimethamine) Fansidar (Pyrimethamine/Sulfadoxamine) Halfan (Halofantrine) Primaquine (Primaquine Phosphate) Qualaquin (Quinine Sulfate)
Anthelmintic Agents Mebendazole / Vermox	Albenza (Albendazole) Biltricide (Praziquantel) Mintezol (Thiabendazole) Stromectol (Ivermectin)	
Leprostatic Agents	Dapsone (Dapsone) Thalomid (Thalidomide)	
Antifungals (Systemic) Micronase Griseofulvin / Grifulvin V Nystatin / Mycostatin Clotrimazole / Mycelex Troches Fluconazole / Diflucan Itraconazole / Sporanox Ketoconazole / Nizoral Terbinafine / Lamisil Voriconazole / Vfend	Lamisil Granules (Terbinafine) Noxafil (Posaconazole)	Ancobon (Flucytosine) Sporanox Oral Solution (Itraconazole)

Antiemetic, Anti-Parkinsons & Anti-Migraine Agents

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
<p>Antiemetics</p> <p>Dronabinol / Marinol Granisetron / Kytril Meclizine / Antivert, Vertin Ondansetron / Zofran, Zofran ODT Prochlorperazine / Compazine Promethazine HCL / Phenergan Trimethobenzamide / Tigan</p>	<p>Transderm-Scop Patch (Scopolamine)</p>	<p>Anzemet (Dolasetron) Cesamet (Nabilone) Emend (Aprepitant) Sancuso Patch (Granisetron) Zuplenz Film (Ondansetron)</p>
<p>Anti-Parkinsons Agents</p> <p>Amantadine / Symmetrel Benzotropine / Cogentin Bromocriptine / Parlodel Carbidopa/Levodopa / Sinemet/CR, Parcopa Pramipexole / Mirapex Ropinirole / Requip</p>	<p>Azilect' (Rasagiline) Mirapex ER' (Pramipexole) Requip XL' (Ropinirole) Stalevo (Carbidopa/Levodopa/Entacapone)</p>	<p>Apokyn Injectable (Apomorphine) Comtan (Entacapone) Tasmar (Tolcapone) Zelapar Rapitab (Selegiline)</p>
<p>Anti-Migraine Agents</p> <p><u>Triptans:</u> Sumatriptan Tablets / Imitrex Naratriptan / Amerge</p> <p><u>Ergotamines / Other:</u> Aspirin or Butalbital/Caff / Fiorinal APAP/Butalbital/Caff / Fioricet Ergotamine/Caffeine / Cafergot Isometheptene / APAP Combo / Midrin, Migralam Dihydroergotamine/ DHE 45</p>	<p><u>Triptans:</u> Treximet' (Sumatriptan/Naproxen Sodium)</p> <p><u>Ergotamines / Other:</u> Cambia Powder (Diclofenac Potassium)</p>	<p><u>Triptans:</u> Alsuma Injection (Sumatriptan) Axert (Almotriptan) Frova (Frovatriptan) Imitrex Spray & Inject (Sumatriptan) Maxalt/MLT (Rizatriptan) Relpax (Eletriptan) Sumavel DosePro Inject (Sumatriptan) Zomig/ZMT (Zomitriptan)</p> <p><u>Ergotamines / Other:</u> Ergomar (Ergotamine) Migral (Isometheptene) Migranal Nasal (Dihydroergotamine)</p>

Neurologic Agents

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
<p>Alzheimer's Agents</p> <p><u>AchE Inhibitors</u> Donepezil / Aricept/ODT Galantamine / Razadyne/ER Pyridostigmine / Mestinon Razadyne / Reminyl, Reminyl ER Rivastigmine / Exelon Capsule</p>	<p><u>AchE Inhibitors</u> Aricept 23 only (Donepezil) Exelon Patches' (Rivastigmine)</p> <p><u>NMDA Receptor Antagonists</u></p>	<p><u>AchE Inhibitors</u> Prostigmin (Neostigmin)</p> <p><u>NMDA Receptor Antagonists</u> Namenda (Memantine)</p>
<p>Anticonvulsants</p> <p>Carbamazepine / Tegretol (All other Strengths) Clonazepam / Klonopin Divalproex Sodium – Depakote/ER Ethosuximide / Zarontin Gabapentin / Neurontin, Gabarone Lamotrigine / Lamictal Levetiracetam / Keppra Mephobarbital / Mebaral Oxcarbazepine / Trileptal Phenobarbital / Phenobarbital Phenytoin / Dilantin Primidone / Mysoline Topiramate / Topamax Valproic Acid / Depakene Zonisamide / Zonegran</p>	<p>Dilantin 30mg/50mg ONLY (Phenytoin) Lamictal XR/ODT' (Lamotrigine) Lyrica (Pregabalin) Neurontin Suspension Only (Gabapentin) Tegretol XR 100mg only (Carbamazepine)</p>	<p>Carbatrol (Carbamazepine) Celontin (Methsuximide) Diastat Acu-Dial Gel (Diazepam) Equetro (Carbamazepine) Felbatol (Felbamate) Gabitril (Tiagabine) Keppra XR (Levetiracetam) Onfi ^{P/A Diagnosis} (Clobazam) Phenytek (Phenytoin Sodium') Potiga (Ezogabine) Sabril (Vigabatrin) Stavzor (Valproic Acid) Vimpat (Lucosamide)</p>
<p>Restless Leg Syndrome (RLS) Agents</p> <p>Pramipexole / Mirapex Ropinirole / Requip</p>	<p>Horizant' (Gabapentin Enacarbil)</p>	<p>Xenoport ER (Gabapentin Enacarbil)</p>
<p>Fibromyalgia Agents</p>	<p>Lyrica (Pregabalin)</p>	<p>Cymbalta (Duloxetine) Savella (Milnacipran)</p>
<p>Neuropathic Pain / PHN** Agents</p> <p>Gabapentin / Neurontin</p>	<p>Lyrica (Pregabalin)</p>	<p>Cymbalta (Duloxetine) Gralise (Gabapentin)</p>

** - Post-Herpatic Neuralgia (PHN)

Blood Modifiers

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Anticoagulants /Anti-10A/Thrombin Inhibitors Warfarin Sodium / Coumadin Heparin Sodium	Pradaxa' (Dabigatran Etexilate)	Xarelto 15mg, 20mg (Rivaroxaban)
Heparin-Related Products / DVT	Xarelto 10mg (Rivaroxaban)	Arixtra (Fondaparinux) Fragmin (Dalteparin) Innohep (Tinzaparin) Lovenox (Enoxaparin)
Platelet Aggregation Inhibitors / ACS Anagralide / Agrylin Cilostazol / Pletal Dipyridamole / Persantine Pentoxifylline / Trental Ticlopidine / Ticlid	Aggrenox' (Dipyridamole / Aspirin) Plavix (Clopidogrel)	Brilinta (Ticagrelor) Effient (Prasugrel)
Hematopoietic Agents <u>Hematinics</u>	<u>Hematinics</u>	<u>Hematinics</u> Aranesp (Darbepoetin) Epogen (Epoetin) Procrit (Epoetin)
Other Products		Lestyda (Tranexamic Acid)

Cardiovascular (Heart) Agents (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
<p>ACE Inhibitors</p> <p>Benazepril / Lotensin Captopril / Capoten Enalapril / Vasotec Fosinopril / Monopril Lisinopril / Prinivil, Zestril Moexipril / Univasc Quinapril / Accupril Perindopril Erbumine / Aceon Ramipril / Altace Trandolapril / Mavik</p> <p>ACE Inhibitors w/ Diuretics</p> <p>Benazepril/HCTZ / Lotensin HCT Captopri /HCTZ / Capozide Enalapril/HCTZ / Vaseretic Fosinopril/HCTZ / Monopril HCT Lisinopril/HCTZ / Prinzide, Zestoretic Moexipril/HCTZ / Uniretic Quinapril/HCTZ / Accuretic</p> <p>ACE Inhibitor / CCB Combination</p> <p>Benazepril/Amlodipine / Lotrel Tarka[#]/Trandolapril/Verapamil</p>	<p>Lotrel (Benazepril/Amlodipine) <i>(5/40mg and 10/40mg only)</i></p>	<p>Lexxel (Felodipine/Enalapril)</p>
<p>A-2 Antagonists (ARBs)</p> <p>Losartan / Cozaar</p> <p>A-2 Antagonists (ARBs) w/ Diuretics</p> <p>Losartan/HCTZ / Hyzaar</p>	<p>Benicar^o (Olmesartan) Diovan^o (Valsartan)</p> <p>Benicar HCT^o (Olmesartan/HCTZ) Diovan HCT^o (Valsartan/HCTZ)</p>	<p>Atacand (Candesartan) Avapro (Irbesartan) Edarbi (Azilsartan Medoxomil) Micardis (Telmisartan) Teveten (Eprosartan)</p> <p>Atacand HCT (Candesartan/HCTZ) Avalide (Irbesartan/HCTZ) Edarbyclor (Azilsartan/Chlorthalidone) Micardis HCT (Telmisartan/HCTZ) Teveten HCT (Eprosartan/HCTZ)</p>

Cardiovascular (Heart) Agents (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
A-2 Antagonists (ARBs) / CCB Combination	Azor' (Olmesartan/Amlodipine) - Tribenzor' (Olmesartan/Amlodipine/HCT) Exforge' (Valsartan/Amlodipine) - Exforge HCT' (Valsartan/Amlodipine/HCT)	Twynsta (Telmisartam/Amlodipine)
Renin Inhibitors & Combinations	Tekturna' (Aliskiren Hemifumarate) - Amturnide' (Aliskiren/Amlodipine/HCT) - Tekamlo' (Aliskiren/Amlodipine) - Tekturna HCT' (Aliskiren/HCT) - Valturna' (Aliskiren/Valsartan)	
Antiarrhythmics / Anti-Ischemic Amiodarone / Cordarone/ Pacerone Disopyramide / Norpace/ Norpace CR 150mg Flecainide / Tambocor , Mexiletine / Mexitil Procainamide / Pronestyl/SR Propafenone / Rythmol Quinidine Gluconate / Quinaglute	Procanbid (Procainamide) Tikosyn (Dofetilide)	Corvert (Ibutilide Fumarate) Multaq (Dronedarone) Norpace CR 100mg (Disopyramide) Pacerone 100mg (Amiodarone) Ranexa (Ranolazine) Rythmol SR (Propafenone)
Cardiac Glycosides Digoxin / Digitek, Lanoxin		
Vasodilators, Coronary, Nitrates Isosorbide Dinitrate / Isordil, Sorbitrate, Isochron Isosorbide Mononitrate' / ISMO, Imdur, Monoket Nitroglycerin (Discs) / Nitrodisc Nitroglycerin' (Patch) / Nitro-Dur, Minitran	Nitrolingual' (Nitroglycerin Spray) Nitrostat (Nitroglycerin Oral)	Bidil (Isosorb Dinitrate/Hydralazine) Dilatrate-SR (Isosorbide Dinitrate) Nitro-BID (Nitroglycerine) NitroMist (Nitroglycerin)
Vasodilators, Sympatholytics Clonidine / Catapres, Catapres TTS Patch Guanfacine / Tenex Hydralazine / Apresoline Methyldopa / Aldomet Methyldopa/HCTZ / Aldoril	Clorpres (Clonidine/Chlorthalidone)	Hydra-zide (Hydralazine/HCTZ)

Antihyperlipidemic (Cholesterol) Agents

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Statins Atorvastatin / Lipitor [^] Lovastatin / Altprev, Mevacor Pravastatin / Pravachol Simvastatin / Zocor	Crestor ['] (Rosuvastatin)	Advicor (Niacin/Lovastatin) Lescol/XL (Fluvastatin) Livalo (Pitavastatin) Simcor (Simvastatin w/ Niacin) Vytorin (Ezetimibe/Simvastatin)
Statin- CCB Combinations Amlodipine/Atorvastatin / Caduet [^]
