A tailor-made solution
At the beginning of each partnership, we’ll work with you to build a tailored network configuration solution that meets your unique needs. The end result: less claim feeds, fewer network connections, reduced calls and less provider noise. And more time to focus on the strategic aspects of your business.

Streamlined processes deliver results
With one partner, Emdeon EDGE, to manage all of your in and out-of-network claims, you’ll see how easy it can be to administer your claims repricing efforts. Our integrated approach enables you to increase savings opportunities through higher PPO penetration, and you can save time and money without the need for multiple direct contracts and associated EDI feeds or additional IT equipment and resources. The ‘buck’ doesn’t stop there, because we obtain prompt provider sign-off on negotiated discounts you experience shorter turnaround times and minimal appeals.

Emdeon Payment Integrity Solutions
Get the payment integrity your business needs – how you want it, when you want it – with Emdeon EDGE™. Reduce improper payments and minimize profit loss caused by healthcare overpayments with an integrated, multi-layered approach that offers both prospective and retrospective claims review as well as in and out-of-network claims management. Emdeon uses multiple validation methods – including fraud detection, prevention and investigation, payment error prevention, integrated repricing, and audit and recovery services – designed to save time, money and resources with minimal workflow disruption and resource drain. Our expert investigators and data analysts continuously analyze data and scrutinize patterns, combining built-in rules and advanced analytics with information and models that are constantly updated to recognize and fight overpayments before they impact your bottom line.
