

Simplifying the Business of Healthcare

UP-TO-DATE CLAIM VISIBILITY ANYTIME, ANYWHERE

More visibility.
More productivity.
More often.

Emdeon Vision Mobile

An extension of Emdeon VisionSM for
Claim Management

Emdeon Vision for Claim Management is a web-based program that enables end-to-end visibility of healthcare claims from the point of submission to Emdeon through payer adjudication as well as fifteen months of historical claims data. It can be used in a standalone mode but may also be integrated with a number of leading physician office systems. Emdeon Vision for Claim Management is a simple yet powerful tool for day-to-day accounts receivable monitoring, error corrections and claim tracking. Interactive dashboard reporting also helps office staff and management analyze their claim rejections, including the top reasons for rejections.

Tools to monitor your practice on-the-go

Emdeon Vision Mobile is an extension of the web-based program and offers healthcare providers a quick glimpse into the claim management side of their practice from their portable handheld device. Physicians can identify trends or potential issues while monitoring their practice remotely via the mobile application.

"During the day, my focus is on my patients. This mobile application offers me the ability, at a very quick glance, to monitor my practice when I'm not in the office and helps ensure that our insurance billing arrives to the insurance company without issues that could affect our cash flow or our patients."

Dr. Subir Guha
Guha Family Practice

Getting started

Emdeon Vision for Claim Management is offered to all Emdeon claim customers as part of their current claiming solution. To get started go to <https://access.emdeon.com/PSL> from your iPhone®, Android™, Windows Mobile®, Palm® or other "smart" portable device and enter your Emdeon Vision user name and password. If you're not currently an Emdeon Vision customer, register at www.emdeon.com/signup.

Features

- View an instant snapshot of all claims submitted through Emdeon by day, week or month
- Claim status is updated several times throughout the day
- View a summary of total dollars rejected that have been worked by the office staff or not
- Billing trends graph is a cash flow snapshot of your practice
- Monitor the billing workflow with a summary of the number of files sent, claims received, payer and Emdeon rejections
- Available for the iPhone®, Android™, Windows Mobile®, Palm® or other “smart” portable devices

Benefits

- Available as part of your current claiming solution with Emdeon
- Eliminates the need to print and carry reports home to see how your practice is doing
- Have peace of mind when you’re not in the office knowing that you can monitor your claims anytime, anywhere
- Research most frequent rejection reasons that are causing a negative impact on your bottom line

Emdeon is a leading provider of revenue and payment cycle solutions that connect payers, providers and patients to improve healthcare business processes.
