

# Secondary Claims

The screenshot displays the Emdeon Vision Suite for Providers interface. At the top, the logo for Emdeon Vision Suite for Providers is visible. Below the logo is a navigation menu with options: Home, Claims, Payments, AAFF, Analytics, Preferences, and Support. The main content area shows a breadcrumb trail: Home > File Summary Search > File Summary > Claim Summary > Claim Detail. Below the breadcrumb trail is a search filter section with fields for Claim Received Date (08/16/2011 to 08/24/2011), Tax ID (Optional), and Site ID (Optional). There are Submit and Reset buttons. Below the search filter is a note: "If no dates are entered, dates will default to last 7 days." Below the note is a toolbar with icons for print, back, forward, and zoom (100%). The main content area is titled "Claim Detail" and shows search criteria: Emdeon Claim ID: [redacted]. Below the search criteria are three buttons: View / Edit Claim, Create Secondary Claim (highlighted with a red box), View Audit History, and Get Help with this Claim. A yellow arrow points to the Create Secondary Claim button. Below the buttons is a list of claim details:

Insured ID	Provider Tax ID	Claim Received Date
Patient Name	Billing Provider ID	Emdeon File ID
Patient DOB	Billing Provider NPI	Emdeon Claim ID
Claim Amount	Site ID	Payer ID
Service From	Patient Control No.	Worked Status <input type="checkbox"/>
Service To	Payer Name	NPI XWalk <a href="#">XWalk Review</a>
Payer Claim ID		Timely Filing Letter <a href="#">Display Letter</a>
		Attachments <a href="#">Medical Attachment</a>

From the Emdeon Vision claim detail screen, providers will be able to create a secondary claim from a primary claim. This will allow them to make changes and create the secondary claim to the payer.
